

The NewUSA.net Pledge

We Pledge to Support and Fight For Unselfish Safety for All

The 5-M Problem: Multi-Millionaires Make Money with Planet Murder. Not all millionaires do this of course but many do

**** In the U.S. the 5 M problem has been protected by corporate lying and buying of polluting businesses, politicians and judges in various ways.**

- Banks like Chase, Citibank, Bank of America, and Wells Fargo support oil and natural gas pollution by each making investments of over 50 billion dollars to fossil fuel polluters annually. More pollution and planet destruction support by far than any other banks world-wide.
- Oil and gas companies have lied about their environmental disaster-making for over 50 years and have continually blamed individuals for the crisis they've created and promoted for profit.
- And all of these pollution industries fund politicians who become millionaires with their profit-making support.
- The United States government is the world leader of supporting fossil fuels sales and pollution production and that danger is still increasing and not decreasing yearly.

Nobody has gone to jail for doing this. Still happening.

**** Tobacco companies have spent decades selling addictive smoking drugs which fouled the air and slowly killed millions of victims.**

Nobody has gone to jail for doing this. Still happening.

**** Pesticide and fertilizer companies have poisoned food and water for decades. Mass murder has ensued.**

Nobody has gone to jail for doing this. Still happening.

**** Power companies have poured poorly-filtered perpetually poisonous CO2 into the air for decades murdering people and the planet in various ways.**

Nobody has gone to jail for doing this. Still happening.

**** In the US for decades the nation's poor have lived next to polluting industries getting poisonous air and water courtesy of government and industries. And 12.8% of US citizens is the largest percentage of poor people by far of any of the top 20 wealthy countries on the planet. If we had universal health care like the other top countries this poverty number would drop dramatically**

Nobody has gone to jail for doing this. Still happening.

So....

Why We Should All Make the **NEWUSA** Pledge:

****** We as individuals who care about unselfish environmental and social safety issues can pledge to support and fight for **Unselfish Safety for All** and help create and support **New USA Pledge groups** around the country. Our New USA Pledge supporters can plan and move to help stop the perilous money and corporate greed which leads to destructive people and planet murder practices in the U.S.

Fight for these Safety For All Needs:

Environmental Safety

- **** Mandate clean air, water, create major fines and imprisonment penalties.
- **** Abolish corporate tax rewards for planet murdering.
- **** Reward more renewable projects.

Health Care Safety

- **** Create Universal Health Care like all other major countries have. Reduce drug costs like most other countries already have.
- **** Stop our U.S. death rate and low average age of death being a lot worse than most major countries.

How to Support the New USA Pledge Safety Plan

A. Start Safety Pledges:

- 1. Help create and promote** local and regional New USA Pledge groups
- 2. Then seek New USA pledging support** from:
 - ****Local, state and national politicians
 - ****Local organizations, clubs, churches, schools
 - ****Businesses – national and local

B. Publicize, Share and Grow Pledge Supporters:

- 1. Create **NewUSA** web discussion groups.**
- 2. Creating social groups** for free others by with programs like [Mastodon](#) or [Signal](#) and/or email, blogs, Zoom discussions -- family, friends. **Share monthly goals/results.**
- 3. Create your New USA Pledge political and business honor roll** as it expands – and **share** info about all **who do and do not support the pledge.**
- 4. Seek New USA pledge members** throughout your state and beyond by, sharing goals and making live Zoom presentations to potential new participants.

Ask questions and share **NEWUSA progress by messaging info@newusa.us**
